

# MITRE eCTF Challenge 2016

## Hand-off Document 2-24-16

### Northeastern Team

Members: Benjamin Tan, Emily Pankosky, Erin O'Neill, Kim Tran, Mark Wilkening, Nicholas Kubasti, Samantha Gray, Victoria Suha

---

### Master PIN

Our default Master PIN has been set as 18981898

This pin is required to set a new Master PIN

The process for setting a new Master PIN requires access to the server. This is so no tenant can reset the Master PIN with just the widget.

To set a new Master PIN:

- Run `python change_master.py` from the same directory as the server.
  - Follow the prompts to enter the current and new PINs.
  - You will receive `Master PIN changed. Please restart the server.` if the action was successful.
- 

### Image Install

Our Image can be written to an SD card, and when the BBB is booted from SD, the image will be installed on the BBB.
